

Meritor Part

Meritor Parts - Meritor is a leading global dealer which is proudly built on a one hundred year tradition of quality and service. They concentrate on a broad range of integrated systems, modules and parts to original machinery manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage within the worldwide operations. The company values all of their clients and wishes to ensure their success while anticipating their different requirements. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred people, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

By just employing future focused workers, Meritor strongly believes these top-caliber workers would be able to rapidly get used to to changing surroundings and exhibit the commitment and performance considered necessary in order to reach results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides all their staff different opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, braking and suspension systems designed for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the requirements of their global engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located around the globe in 19 nations and in 5 different continents.

They have their supplier network which is specifically situated in order to support the growth of the business. Every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every part of the business. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business methods and apply lean techniques.
